- Time-management

LANGUAGE

- Gujarati
- Hindi
- English

ABOUT ME

Enthusiastic and detail-oriented web developer with a solid foundation in HTML, CSS, JavaScript, Tailwind, and ReactJS. Eager to contribute technical skills and creativity to a dynamic development team.

PROJECTS

Flipkart Clone Web Application

A full-stack e-commerce web application was developed using the MERN stack to create a robust and scalable solution. The project replicates the core functionality and design of the online marketplace, Flipkart, and showcases proficiency in frontend and backend technologies. Features such as product catalog, shopping cart, and user authentication were implemented.

Shiv Clothing Store

Developed an attractive and user-friendly clothing store using HTML, CSS, and JavaScript, with a focus on improving the user experience. Utilized ReactJS for dynamic and interactive features, including product showcasing and responsive design. Demonstrated expertise in front-end technologies.

Portfolio Website

A visually appealing and dynamic portfolio website was created to showcase professional skills and experience in front-end technologies like HTML, CSS, and JavaScript. The website has a clean and modern design that makes it easy to navigate and highlights achievements effectively.

WORK EXPERIENCE

KiaSoftTech | Front-end Developer

01 Aug 2023 To 31 Aug 2023

During a one-month internship at KiasotTech, I collaborated with a team and contributed to various projects aimed at enhancing my skills in web development. I developed and deployed a set of web applications, including a stopwatch, clock, portfolio website, and todo list application, using HTML, CSS, and JavaScript. I completed assigned tasks within tight deadlines and received positive feedback from team members for the quality of code and attention to detail.
